## Projects

### FCI Food Grain Stock Analysis Dashboard | Power BI

Nov 2025 - Dec 2025

- Transformed raw FCI stock data into an interactive Power BI dashboard, enabling faster interpretation of regional, district, and commodity level trends.
- Delivered clear, decision ready insights on stock distribution and time-based movement through intuitive KPIs, filters, and visual storytelling.
- Enhanced decision making efficiency by replacing manual analysis with visual, insight driven reporting analysis.
- GitHub Repository Link: <https://github.com/durgareddy225/FCI-Food-Grain-Stock-Analysis-Dashboard>

### School Insights Dashboard | MS Excel

Mar 2025 - Apr 2025

- Analyzed Meghalaya school infrastructure data to uncover district and village-level trends, including rural-urban distribution, management types, and unrecognized schools.
- Developed an interactive Excel dashboard using Pivot Tables, slicers, and charts to transform raw data into clear, insight-driven visuals.
- Revealed key insights on school density, primary education dominance, and regional disparities.
- GitHub Repository Link: <https://github.com/durgareddy225/School-Insights-Dashboard>

### Andhra Pradesh Agricultural Data Analysis | Python, Pandas, Matplotlib, Seaborn, SciPy

Jan 2025 - Feb 2025

- Interpreted large-scale irrigation census data from Andhra Pradesh to uncover spatial and source-wise water usage patterns relevant to agricultural planning.
- Performed data visualization and trend analysis to identify regional water usage patterns.
- Implemented exploratory data analysis using Pandas, simplifying data exploration and enabling faster identification of key trends.
- GitHub Repository Link: <https://github.com/durgareddy225/AP-Agricultural-Data-Analysis>

## Training

### Mastering Data Structures and Algorithms – LPU CPE | DSA, C++

Jun 2025 - Jul 2025

- Gained practical experience in Data Structures and Algorithms with a focus on practical implementation.
- Developed a Traffic Light Queue Simulation using custom priority queues and linked lists for lane-wise vehicle control.
- Integrated C++ backend with a web interface to visualize simulated traffic operations.

## Certificates

### Data Analysis and Visualization with Python

Mar 2026

Coursera - [Certificate Link](#)

### Getting Started with Artificial Intelligence

Jul 2025

IBM SkillsBuild - [Certificate Link](#)

### Database Management System - Science Graduates

Jun 2025

Infosys Springboard - [Certificate Link](#)

### Power BI for Business Professionals

Jun 2025

Infosys Springboard - [Certificate Link](#)

## Technical Skills

**Languages:** C++, Python, SQL

**Technologies/Frameworks:** Power BI, MS Excel, Numpy, Pandas, Matplotlib, Seaborn, SciPy, GitHub

**Skills:** Data Structures and Algorithms, Operating Systems, DBMS, Problem-Solving

## Education

### Lovely Professional University Punjab

2023 – 2027

Computer Science and Engineering - CGPA: 8.01

Phagwara, Punjab

### Aditya Junior College

2021 – 2023

12th with Science - Percentage: 89.5

Mandapeta, Andhra Pradesh

### Sri Siddhartha EM High School

2020 – 2021

10th with Science - CGPA: 10.0

Ravulapalem, Andhra Pradesh
